

Welcome to Fifth Grade

Over the summer, there are a few things we'd like you to do to be ready for fifth grade. First, we would like you to review math facts throughout the summer so you will come to school in September knowing them. One fun way to do this is to visit www.Multiplication.com. Also, you can review your math skills on IXL. Next, please read at least two books from the summer reading list. Be ready to discuss and write about them when you return to school. Finally, as you purchase your school supplies, please pick up the following items:

- 1 zip pouch for pens, pencils, markers, etc.
- One inch capacity three-ring binder with "clear-vue" cover
- Pencils
- Ruler
- Scissors
- Glue sticks
- Highlighters
- Colored pencils
- Dry erase markers (at least 12 markers)
- 50 count page protectors

**** A fifth grade assignment notebook will be provided****

We are looking forward to working with all of you next year. Have a wonderful summer.

Sincerely,

The Fifth Grade Team
